from New Haven to South Burlington; and (4) the)
reconductoring of a 115 kV transmission line from)
Williamstown to Barre, Vermont –)

Order entered: 1/10/2008

ORDER RE REVISED NORTH FERRISBURGH SUBSTATION DESIGN

On November 29, 2007, the Public Service Board ("Board") issued an Order approving the design plans for the North Ferrisburgh substation with conditions. One condition required Vermont Electric Power Company, Inc. ("VELCO") to move existing distribution lines in the vicinity of the substation and file proposed plans for approval. On December 19, 2007, VELCO filed the required plans.¹

No party filed objections to the plans.

The Board approves the December 19 design plans.

1. Additionally, VELCO's December 19 filing included plans for a temporary relocation of the Green Mountain Power Corporation 34.5 kV line in order to accommodate construction of the North Ferrisburgh substation. No party filed comments regarding the 34.5 kV relocation. Based on the information that has been filed to date, the Board has concluded that no further Board action is required at this time regarding the temporary relocation.

SO ORDERED.

Dated at Montpelier, Vermont, this 10th day of January, 2008.
